

Subject	Report Requirement	Due to Congress	Report/ Page No.	Navy POC/ Originator	Major Action Taken
FY 2003					
C-130J	Authorizes SECDEF to enter into a multiyear procurement contract for Air Force C-130J and Marine Corps KC-130J beginning with the FY 03 program year, subject to a certification to the congressional defense committees that satisfactory progress is being made towards a successful operational test and evaluation and that each of the conditions specified in section 2306b(a) of title 10, USC have been satisfied with respect to that contract.	Prior to entering multiyear contract	HASC 107-436, Pages 99-100	Air - Mr. Ahmad, 693-0896	Action TBD. SECDEF has lead. 7/12/02 - PMA-207 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
*Global Hawk High Altitude Endurance Unmanned Aerial Vehicle	Directs SECNAV to submit the acquisition strategy for the BAMS Unmanned Aerial Vehicle (UAV) to the Congressional Defense and Intelligence Committees	Not specified - Target date January 2003	HASC 107-436, Pages 208-209	PMA-263/Air - Mr. Blackmon, 695-4949	6/5/02 - AIR-7.0D informed PMA-263 of report requirement; asked to provide concurrent copy of any information provided to lead. PMA-263 assigned lead to draft report. 7/12/02 - PMA-263 tasked with providing input for response. Input due to AIR-7.0D 1 Oct 02.
Patents and Licensing	Directs department to develop a plan and to report to Congress on specific strategies for marketing its intellectual property more aggressively and for exploiting the findings of DDR&E Report. The plan and subsequent report to the Committee should include recommendations on staffing levels for appropriate intellectual property experts, discussion on the role of the Offices of Research and Technology Applications, descriptions of planned cooperative activities with the private sector and other government agencies and analyses of any regulator or statutory barriers to fully marketing DoD Intellectual Property.	No specified	SASC 107-151, Pages 244-245		7/12/02 - AIR-11.0 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
DoD Unmanned Aerial Vehicle Systems	Requires SECDEF to submit a report for each unmanned aerial vehicle system to include a description of the system infrastructure; the system ORD; a description of the system training and basing infrastructure; a description of how the department acquires unmanned aerial vehicle systems; the system acquisition plan; and recommended changes in law that would facilitate unmanned vehicle acquisition.	1/1/2003	HASC 107-436, Page 129	Air - Mr. Blackmon/ UAV Task Force in USD (AT&L)	UAV Task Force in USD(AT&L) has been tasked to draft report. N78 will be the Navy's focal point for providing information to OSD. Navy POC on the UAV Task Force is CDR Dave Seagle. SECDEF lead. 6/5/02 - PMA-263 informed of report required; asked to provide concurrent copy of any information provided to lead.

Pilot Programs for Revitalizing DoD Laboratories	SECDEF shall submit to Congress a report on the experience under the FYs 1999 and 2000 revitalization pilot programs in exercising the authorities provided for the administration of those programs. The report shall include a description of barriers to the exercise of the authorities that have been encountered; the proposed solutions for overcoming the barriers; and the progress made in overcoming the barriers.	1/1/2003	SASC 107-151, Page 135	CNR	6/5/02 - AIR-4.0/5.0/7.3 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
One-Year Extension of Program Applying Simplified Procedure to Certain Commercial Items	Section extends by one more year the authority for SECDEF to use simplified acquisition procedures for the purchase of commercial items not greater than \$5M. Section would also require SECDEF to report to Congress whether authority under the pilot program should be made permanent. The report should address the benefits and usefulness of this pilot program.	1/15/2003	HASC 107-436, Page 331	ABM - Mr. Ostrom	Expect DDP to prepare report, but they will look to the services for inputs/recommendations. SECDEF has lead. 6/5/02 - AIR-2.0/7.1 informed of report requirement; asked to provide concurrent copy of an information provided to lead.
Evaluation of Training, Knowledge, and Resources Regarding Negotiation of Intellectual Property Arrangements	Requires SECDEF to evaluate and report on the adequacy of training, education and resources within the acquisition community on the negotiation of intellectual property. Report shall include any actions that should be taken to meet the Departments needs, and the number of legal personnel within DoD who are trained in the negotiation of intellectual property arrangements	2/1/2003	HASC 107-436, Page 331	ABM/DACM??	Action TBD. May be assigned to OGC, but may involve DACM and/or ABM. 6/5/02 - AIR-2.0/11.0 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Improvement of Personnel Management Policies and Procedures Applicable to the Civilian Acquisition Workforce	Requires SECDEF to develop an implementation plan for improving the personnel management policies and procedures for the DoD acquisition workforce based on the demonstration project authorized by Sec. 4308 of the FY 96 Auth. Act. SECDEF to provide report to Congress containing the implementation plan and any areas within the implementation plan needing legislative relief.	2/15/2003	HASC 107-436, Page 332	DACM - Mr. Hauenstein, 602- 2835	Action TBD. 6/5/02 - AIR-1.0/7.3 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Report on Implementation of Defense Science Board Recommendations	SECDEF shall submit to the congressional defense committees a report on the extent of the implementation of the recommendations set forth in the December 2000 Report of the Defense Science Board Task Force on Test and Evaluation Capabilities.	3/1/2003	SASC 107-151, Page 134	CNR	Action TBD. 6/5/02 - AIR-4.0/5.0 informed of report requirement; asked to provide concurrent copy of any information provided to lead.

Government Purchase and Travel Cards	Directs SECDEF to submit a report which details policy and procedural changes that have been implemented, including the Departments method of ensuring and evaluating compliance with regulations governing the purchase and travel card programs.	3/3/103	HAC 107-532, Pages 41-42	ABM	Action TBD. 7/12/02-AIR-7.1/2.0 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Pilot Programs for Revitalizing DoD Laboratories	SECDEF shall submit to Congress a report on the implementation of the pilot program under subsection (a) and the fiscal years 1999 and 2000 revitalization pilot programs. The report shall include for each such pilot program each laboratory selected for the pilot program; to the extent practicable a description of the innovative methods that are to be tested at each laboratory; and the criteria to be used for measuring the success of each method to be tested.	9/1/2003	SASC 107-151, Page 135.	CNR	Action TBD. 6/5/02 - AIR-4.0/5.0/7.3 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Pilot Programs for Revitalizing DoD Laboratories	Not later than 90 days after the expiration of the period for the participation of a laboratory in a pilot program referred to in paragraph (2), SECDEF shall submit to Congress a final report on the participation of that laboratory in the pilot program. The report shall include a description of the methods tested; the results of the testing; the lessons learned; any proposal for legislation that the Secretary recommends on the basis of the experience at that laboratory under the pilot program.	6/1/2006 (approx.)	SASC 107-151, Page 135	CNR	Action TBD. 6/5/02 - AIR-4.0/5.0/7.3 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Small Business Concerns Owned and Controlled by Women	The committee directs the Secretary of Defense to report whether DoD has met its annual goal of awarding procurement contracts to small business concerns owned or controlled by women from fiscal years 1998 - 2002. To the extent DoD has not met its goals, SECDEF shall include in the report actions taken to try to meet its goal.	2/15/2003	HASC 107-436, Page 330		Action TBD. 6/5/02 - AIR-2.0C informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Incremental Acquisition of Major Systems	Section 802 would require SECDEF to submit to the congressional defense committees a report on how DoD plans to comply with applicable requirements of title 10, USC and DoD regulations when it conducts programs for the incremental acquisition of major systems.	Not specified	SASC 107-151, Pages 333 - 334		Action TBD. 6/5/02 - AIR-1.0/2.0 informed of report requirement; asked to provide concurrent copy of any information provided to lead.

Test and Evaluation Workforce Improvements	Section 235 would require the Under Secretary of Defense for Acquisition, Technology and Logistics to develop a plan to ensure that the T&E workforce of the DoD is of sufficient size and has the expertise needed to ensure that the testing of DoD systems identifies issues of military suitability and effectiveness in a timely and accurate manner.	Not specified	SASC 107-151, Page 133		Action TBD. 6/5/02 - AIR-4.0/5.0/7.3 informed of report requirement; asked to provide concurrent copy of any information provided to lead.
Defense Nanotechnology Research and Development Program	Sec. 245 would require an annual report to Congress to describe the program's research and coordination activities. The report should review and assess the status and progress of the program with respect to the established challenges and technical goals; describe the funding levels for each service and defense agency participating in the program; describe the coordination between the research efforts within the program and with those of civilian agencies and the private sector; evaluate efforts at transitioning research, technologies and concepts into military products and uses; and recommend new initiatives, programs, mechanisms for coordination or other activities that would facilitate the achievement of program purposes.	Not specified	SASC 107-151, Pages 140 - 142		Action TBD. 6/5/02 - AIR-4.0T informed of report requirement; asked to provide concurrent copy of any information provided to lead.

FY 2002

MH-60R Dipping Sonar (ALFS) (2001U128008365)	Committee directs the Department of the Navy to submit a report to the House Appropriations Committee no later than March 15, 2002, detailing the acquisition strategy for the MH-60R's Advanced Low Frequency (ALFS) dipping sonar to include a life cycle field support plan, a pre-planned product improvement plan, and technology development plans for a follow-on to the ALFS system	3/15/2002	HAC 107-298, Page 111	CDR Spitz	12/6/01 - Informed PMA-263 of report requirement. Requested concurrent copy of any information provided to lead. 12/10/01 - PMA-299 tasked w/providing input/report; due date 2/6/02. 2/7/02- Draft report rec. 2/19/02 - DPEO(A) signs action memorandum forwarding response for SECNAV signature. Signed by SECNAV 3/19/02
More efficient science and technology investment (2002U128000136)	Committee directs the secretaries of the military departments to assess their S&T investments in service laboratories and research centers, as well as industry and academia, to ensure that these investments fully support the ongoing transformation of the force. The Committee further directs the Secretary of Defense to assess/integrate the findings of the service secretaries and to report the results of the assessments and how investments judged inappropriate have been redirected within the S&T programs of the Department of Defense for the budget request for fiscal year 2003.	2/4/02 (with the budget)	HASC 107-194, Pages 244-245	Mr. Henkle, CNR	E-mail notification made to interested POCs within the TEAM. BD-CNR has contacted OSD to determine Navy action. OSD drafting report. Services to chop.

V-22 Osprey Aircraft before Resumption of Flight Testing (2002U128000526)	Not later than 30 days before the resumption of flight testing of the V-22 Osprey aircraft, the SECDEF shall submit a report to Congress with the following: a comprehensive description of the status of the hydraulics system and flight control software; description of current actions, proposed actions of DoD to implement the recommendations of the panel appointed by SECDEF on 5 Jan 01; an assessment of the recommendations of the NASA on tiltrotor aeromechanics; notice of the waiver of any item capability or any other requirement specified in the JORD for V22	30 days before resumption of flight testing - Target date is 3/25/02	CASC 107-333, Pages 21 and 22, 514	Mr. Carter	Draft report provided to RDA, Air Force and Marine Corps for chop 2/20/02. OSD to certify by 3/21/02 to support a late April first flight. 4/1/02-Chopped by SECNAV. Signed by UNSECDEF for AT&L 4/3/02.
JPATS (2002U128000399)	The committee believes that JPATS procurement for the Navy would not only reduce procurement costs for both the Navy and the Air Force but would reduce operations and maintenance costs as well. The committee directs the Secretary of the Navy to report to the committee within 90 days after enactment of this Act his plan to begin full implementation of the JPATS program beginning in fiscal year 2003.	3/27/2002	HASC 107-194, Page 70	Ms. Henderson	PMA-273 aware of report requirement. RDA has assumed lead for JPATS report requirements. Chopped by OLA, FM, and RDA. N7 expected to forward to DNS on 3/25/02
Navy Research and Development Budget Exhibits (2001U126000823/2002U128000401)	The conferees also share the Senate's concern about the priority given to Fleet and Force operational and support issues in the Navy's science and technology program and direct the Secretary of the Navy to report to the Congressional Defense Committees by March 31, 2002, on the measures being taken to address these issues.	3/31/2002	SASC 107-62 Page 168/ CASC 107-333 Page 593	Mr. Henkle, CNR	E-mail notification made to interested POCs within the TEAM. Placed in chop cycle 2/2/02. In chop in RDA.
Collaborative Program for Development of Advanced Radar Systems for Naval Applications	DDR&E shall submit a report on the implementation of a program to develop and demonstrate advanced technologies and concepts leading to advanced radar systems for naval and other applications. Report shall include a description of the management plan for the program and any other agreements relating to that plan; a schedule for the program; identification of the funding required for fiscal year 2003 and for the future years defense program to carry out the program; a list of program capability goals and objectives	3/31/2002	HASC 107-194, Pages 251 and 252/ CASC 107333, Pages 24 and 593	Mr. Henkle, CNR	E-mail notification made to interested POCs within the TEAM. NAVSEA and ONR reps are attending meeting and working with DDR&E to draft report. Response in chop cycle
Challenge Program for Innovative Technology in Defense Acquisition	SECDEF shall report the technologies selected and the improvements expected. Conferees direct OSD to work with Congress to establish a more rigorous management and oversight structure of the burgeoning number of rapid acquisition programs with the Department	6/1/2002	CAC 107-350, Page 386	CNR	E-mail notification made to interested POCs within the TEAM. SECDEF has lead.
Aviation Requirement for Joint Tactical Terminal (JTT) (2001U128008398)	Committee understands that the Navy and the Air Force have a requirement for an aviation-based radio that is Integrated Broadcast Service (IBS) compliant. Committee directs the Navy and the Air Force to work together and submit a joint requirement and a development and procurement strategy to meet the requirement.	6/1/2002	HAC 107-298, Pages 163 and 164	CDR Jorgensen, C4I	Informed PMA-209 of report requirement. Requested concurrent copy of any information provided to lead. N78 coordinating with Program Office and Air Force. Expect to start chops by DASNs (Air) and C4I) by 2 April. Report has been redrafted. Air Force plans to request an extension to Sept. 2003.

Tactical Unmanned Aerial Vehicle - Broad Area Maritime Surveillance (BAMS) (2001U128008397)	Committee recommends \$10M only for the development of a prototype Maritime Patrol and Reconnaissance (MPR) mission with advanced surveillance sensor equipment on a Global Hawk High Altitude Endurance (HAE) UAV for experimentation and for examining concepts of operation for use in conjunction with other MPR assets. Directs Navy to review and analyze results of previous maritime surveillance experiments with the Global Hawk HAE UAV prior to initiating BAMS. Navy submit a report by June 30, 2002 that includes its evaluation of the previous maritime surveillance experiments, the validity of BAMS approach for MPR, an initial concept of operations for use of an HAE UAV as a adjunct to current MPR assets and future years plans, including budget requirements, for continued development of UAV approach to MPR.	6/30/2002	HAC 107-298, Page 186	Mr. Blackmon	12/01/01 - Informed PMA-263 of report requirement. Requested concurrent copy of any information provided to lead. Response in chop cycle.
Sense of Congress Concerning Military Industrial Base	Up to \$1.5M in Procurement Defensewide is made available for a comprehensive analysis of and report on the risks to innovation and cost of limited or no competition in contracting for military aircraft and related weapon systems for DoD. SECDEF shall report on the design of this analysis 6 months from the date of enactment of this Act.	7/1/2002	CAC 107-350, Page 57	TBD	E-mail notification made to interested POCs within the TEAM. SECDEF has lead. SECDEF has tasked RAND to do study. Services were expected to see draft mid June 02.
V-22 Osprey Aircraft Program	Production rate for V-22 may not be increased above the minimum sustaining production rate for which funds are authorized to be appropriated by this Act until SECDEF certifies to Congress that successful operational testing of aircraft demonstrates certain effectiveness and suitability aspects not yet demonstrated.	Prior to increase in production rate	CASC 107-333, Pages 21 and 514	Mr. Carter	PMA-275 aware of requirement. OSD has lead. Testing will not be completed until FY04. SECDEF has lead.
Incremental Implementation of Navy-Marine Corps Intranet Contract (2002U128000554)	Requires SECNAV to submit to Congress a report on the scope and status of testing and implementation of the NMCI network at the point at which the second and third increments of work stations are ordered. The same information shall be submitted when the performance requirements for NAVAIR headquarters have been met and authority for the NMCI contractor to assume responsibility for the remaining 75,000 sets in the third increment is granted.	5/9/02 (target date)	CASC 107-333, Pages 55 - 57	Ms. Engelbert (PEO(IT))	E-mail notification made to interested POCs within the TEAM. Report awaiting SECNAV signature.
Advanced Concept Technology Demonstration Projects	Funds appropriated under RDT&E, Defense wide for any advanced concept technology demonstration project may only be obligated 30 days after a report, including a description of the project and its estimated annual and total cost, has been provided in writing to the congressional defense committees. SECDEF may waive on case-by-case basis.	Prior to obligation	CAC 107-350, Pages 40 and 41	TBD	E-mail notification made to interested POCs within the TEAM. SECDEF has lead.
Demonstration Project to Increase Small Business and University Participation in Office of Naval Research Efforts to Extend Benefits of Science and Technology Research to Fleet	SECNAV, acting through the Chief of Naval Research, shall carry out a demonstration project to increase access to Navy facilities of small businesses and universities that are engaged in science and technology research beneficial to the fleet. The Secretary shall submit a report on the demonstration project. The report shall include a description of the activities carried out under the demonstration projected and any recommendations for the improvement or expansion of the demonstration project that the Secretary considers appropriated.	2/1/2004	CASC 107-333, Pages 34 and 599	Mr. Henkle, CNR	E-mail notification made to interested POCs within the TEAM. TBD

Joint Service Imagery Processing System - Navy (JSIPS-N)	The Committee believes that at this time the best option is for the Navy to continue development of both the TIS and NAVIS systems for the processing of imagery from legacy tactical reconnaissance systems as well as deployed F/A-18 SHARP and directs the Navy to continue the development of these systems. the Navy is directed to report to the Committee by December 1, 2001, on its plans to implement the Committee's direction.	12/1/2001 1/31/02	HAC 107-298, Page 186	CDR Finlayson	12/4/01 - Informed PMA-281 of report requirement. Requested concurrent copy of any information provided to lead. Extension on due date obtained from HAC (Betsy Philips). Awaiting General Counsel chop before going forward for SECNAV signature.

FY 2001

JPATS (2001U128005629)	The conferees direct that no later than 30 days after the enactment of this Act, the Secretary of the Navy shall submit a report to the House and Senate Appropriations Committees detailing the business case for deferring JPATS acquisition. The report should include a discussion of all life cycle cost impacts associated with the decision to defer acquisition of JPATS; safety issues related to continued use of the T-34 trainer; and the implications of a non-joint initial flight training curriculum.	8/23/2001	FY01 Supplemental Approp. Conf. Report (107- 148)	NAVAIR (PMA- 273)	7/26/01-AIR-7.0D tasked PMA-273 w/providing input on which to base a response; due date is 8/17/01. 8/16/01 - PMA-273 informs AIR-7.0D that RDA has lead (POC is CDR Blake). PMA-273 providing input directly to RDA. SECNAV signed 1/3/02.
